

Technical Data Sheet

Release Film

HCS2108-NP HCS2108-P

Product Description

HCS2108-NP and HCS2108-P is an FEP resin base release film. HCS2108-NP and HCS2108-P exhibits high elongation and excellent release characteristics. It follows all complicated shape of parts without bridging. Suitable for use with all commonly used resin systems up to 500°F (260°C). Color deep red makes it easily detectable on cured laminate. This release film is supplied in both perforated and non-perforated versions.

Properties

Material	FEP
Maximum Use Temperature	500°F (260°C)
Color	Red
Tensile Strength	MD: 23MPa
	TD: 15MPa
Elongation	MD: 160%
	TD: 200%
Density	25µm (43g/m ²)

Availability and Packaging

Thickness	25µm, 51µm (0.001", 0.002")
Width	1.22m, 1.27m, 1.52m (4.0', 4.2', 5.0')

Storage

Store in its original packaging.

Notes

No skin irritation problems experienced and no other special requirement.
